Finding Job Banks and Portals

Earlier this month, America's Job Bank ceased operations. The U.S. Department of Labor created a transition Web site to help job seekers find alternative resources where they can search for jobs and post resumes. Businesses can use the site to find the best places to post jobs and search resumes. The site includes lists of state job banks, veterans and government job banks, and national private-sector job banks and portals.

To find the best job banks for your needs, go to: www.jobbankinfo.org. You'll find an interactive U.S. map to quickly access your local job bank.

Continue to use CareerOneStop (www.careeronestop.org) to make informed employment and education decisions.
